siOne Fallows.28 MANUAL TO HOUSE STORE OF SERVICE CO. DATE OF STORE OF STO citizen in all that the term implies. He was jubitant, of course, and he invited a couple of friends to drink to bis health. There hangs on the wall of the drinking place that crayon of branches, the whole being in deep scenes in Andersonville prison, with shade as the sun had not yet risen which almost everybody is familiar. The new citizen studied it carefully, of the island. and after reading some of the statisties which are printed on the side of the picture, thened to his friends and said: "How did it come that those Sputherners got so many of our fellows down there?" "Our fellows!" near by, "and he's been an American

A * alemarlus Bridge "A submarine bridge?" Did you ever hear tell of such a marvel of the engineer's work, or stop to figure out FOR HEAT - phone mans sto per month; on the conditions that would make such the conditions that would make such an architectural monstrowity necessary? The Oresand is a narraw strait between Denmark and Sweden, which is constantly filled with all kinds of shipping. There is a ferry, but it is ulways being loopeded in its operations by the sea vessels. To obvinte this Rudo ph Lilljequist, the Swedish engineer, proposes the submarine bridge -a structure half tunnet and half bridge The whole affair will be a gignanic tube, restloy on piles sunk out of reach of the bottom of the largest vessels, the diameter sufficient for two callivay tracks and one driver .

An Important One.

A New York elergyman, who was preaching in a neighboring village. astonished the congregation by say-ing: "I wise to return to New York by the first train, as I have a wife and five children there, and have never seen one of them." This occlaration excited the most paluful curiosity among the good people, which was allayed, however, when it became head of the lagoon. known that the "one" which the clergyman and never seen was one that had been born since he left home the day before.

Higher Pay Thun the Judges. It seems hardly credible that a designer of ladies' dresses should be recelving a bigger income than one of her majesty's judges. It is stated, however on good authority, that a fashionable dress designer in the west end of London makes, on an average, between \$20,000 and \$10,000 a year.

No better aid to digestion, No better cure for dyspiopala. Nothing more reliable for billionaness Early Risers, the famous little pills. J. K. Joses.
